

WHAT MAKES US DIFFERENT **is** HOW WE CAN HELP YOU

Past lives and ancestral patterns, along with inter-dimensional interferences, all have the potential to influence your life in many different ways. These influences can be extremely, debilitating and often go unrecognised. Within our unique skill set, an acceptance of ancient Lore provides us with the understanding to cross dimensions of time in order to clear any such influences.

- Our intent is to reach the root cause of an issue and clear it on all levels, lifetimes and bodies
- That means looking at your current existence from the present back to conception and beyond into past lives if necessary
- It means clearing genetic, hereditary patterns or cycles from the ancestral lines of the Mother and/or Father if needed
- It means cutting cords or attachments to past relationships that hinder you and releasing emotional pain
- It also means directing energy to specific areas of the body and biofield to dissolve blockages
- When needed, it means releasing inter-dimensional interferences that are affecting your life
- Our intent is to bring you back into spiritual alignment within three sessions
- It's all about creating balance, allowing you to flow as an energy being so that YOU may create harmony in your life
- All this can be done wherever you are on the planet
